Earth Wind and Fire

This year earthy tones and naturally inspired designs came from Tamarian, who in Atlanta exhibited a collection made with a new weaving technique including *Phases Springhill* 13. Larsen showed off some striking new black and white fabric designs, like *Wind* 14, as part of the Paris Déco Off event. Nodus always have fabulous rug designs and this year the best of them showing at Maison et Objet was *Roots* designed by Matali Crasset 15. Jan Kath's BP rug collection 16, based on the recent BP oil disaster, were fantastic and controversial carpet designs at Domotex and imm Cologne. www.tamarian.com www.larsenfabrics.com www.nodusrug.it www.jan-kath.de
